Townville High School will only be what you make it; because as its students, you are Townville High School. The things you do, the things you say reflect the image of this high school to those you come in contact with. You have a responsibility to yourself and to your school to make the most of your time spent here and to present a good image to the community and to other areas that you visit.

I recall from my previous association with this school, that you were a fine group of students to work with and afirms my belief that this high school has tremendous potential. There has always been a good working relationship between the faculty and student body at Townville and by continuing this cooperative action I feel that this potential can be achieved. Let's hope that the pages that follow in this book will reflect the activities of a first class high school with a first class faculty and a first class student body.

TO THE CLASS OF '67

The year that is drawing to a close has been a year of success in many respects, and this class has had no small part in the fine record of achievement. Personally, I am indebted to you for the contribution that has been made to the standards, life, and achievements of the school as a whole.

As you are about to embark on a new adventure, it is my hope that you have gained more than knowledge at Townville High School -- perhaps some wisdom and understanding. Knowledge without understanding and character has no value. It is my hope also that your experiences here will better prepare you to meet the problems of life.

On behalf of the faculty, I extend best wishes to you wherever you go and whatever you do.

Kay was attended by Cheryl Lingo, Mary Conaway, Alice Noel, Pam Peters, and Dody Proper; also junior attendants Kay White and Carla Murray.

# VARSITY BASKETBALL

To judge the Varsity on their 9-13 won-lost record might be quite misleading. One certainly would have had to witness the games to realize that our team created more excitement than has been generated in recent basketball history. If the test of a team is attitude and desire then our team was a success.

## Now what?

Now that you have graduated you must answer the inevitable question—"now what?" For all of you it means the continuation of studies in one way or another, because learning must and will continue throughout your lives.

In the years to come you may have no more report cards or examinations, but everything you do will be judged realistically. Your preparation for every goal will be carefully watched and evaluated.

Your courses have given you the tools for thought and judgment. They will serve you well, whatever the future has in store for you.

Here at American Viscose we owe much of our progress to new ideas, new improved methods and fresh approaches brought to us by young people like yourselves who never learned to stop learning.

Dear Connie, (Sparky) Yuk Yuk

To a real sweet kid (who likes kids) whom I have the prevelige of signing his (here) year book.

Be a (good, bad) kid and you will likely succeed. See isn't this (sloppy neat). Glad you agree. If you want to tear this page out you won't miss much as Jeff is the only other one who has signed this page besides me.

Sincerely,

Bill

Constance,

To a really great kid, majorette, chorus member, etc. Remember all the great times and also the bad ones. Good luck in the future and maybe if we try hard enough we might have a half way decent majorette squad. Good luck in whatever you try to do and may you have everything you need and want, (within reason of course)
